AMERICAN RESTORATION
2002 West Kirby Street
Wylie, Texas 75098

To Whom It May Concern:

I have had the pleasure of working with American Restoration over the past several years. We have worked together on several projects, of which most notably was a \$2.2 million dollar water-proofing project at Dallas City Hall.

American Restoration has always done an excellent job. Regardless of the size or scope of the job, they have always treated each project seriously. This is shown through their attention to detail, extra coordination efforts with the facility, and appropriate staffing. As an Owner, I have always appreciated this effort, as it definitely reduces the oversight required, while maintaining a high quality product. I've always appreciated American Restoration's ethics, and know that I can trust their opinion.

The staff at American Restoration has been a pleasure to work with, and I have always found them to be professional, courteous, and dependable. I look forward to working with American Restoration on future construction projects, and definitely recommend their services.

Sincerely,

Michael A. Kawecki, RAS, Assoc. AIA
