

To whom it may concern:

March 2017

I wanted to take a second and thank American Restoration Inc. for the superb job they did at The Centrum in a very challenging environment. We had so many trades going at once while doing a total rehab of the exterior, replacing all roofs, changing out all equipment in the plant, and constructing roof decks and building out an amenity center while doing the wet-seal.

Not only did ARI do a great job and get completed on time, they did it while accommodating several schedules and working with, in, and around all of the other vendors. I really do not think any other company would have worked with us and everyone else as well as ARI did. And anytime, and I do mean anytime, whether it was pouring down rain or hot or whatever, when we called the supervisor on the job with a problem, it was handled diligently and very, very quickly.

I am very impressed with American Restoration and I will be using them on every asset I am over, moving forward.

Thank you very much for all you did for us at The Centrum!

Sincerely,

Kyle Houpt  
Chief Engineer Supervisor CBRE
